

ACE MENTORS DEMONSTRATE THEIR LOVE OF ARCHITECTURE!

On October 27th the ACE Mentor team, working with students from University High School, met at ABC's office and reviewed all the building industry professions. What does an Owner do? How do buildings come to be? What is the process? Most important the below mentors explained how and why they became Architects and why they love their profession.

(l to r) Alberto Sanchez de Fuentes (Perkins + Will), Cathie Sullivan (OCPS Facilities Services), Binh Nguyen, LEED AP (Perkins + Will), Hank Wolf, AIA (Team Leader)

Students enjoyed some pizza while asking the Architects numerous questions. Later, they formed teams and competed in designing and building the tallest structure (in 20 minutes) by using marshmallows and spaghetti. All had a great time and looked forward to future sessions.

The Ace Mentor Program can only succeed with the **support of the local A/E/C firms**. Mentors and donations for program supplies and scholarships are needed! Please contact one of the below board members to find out how you can support this great organization!
