Courtney Ardis, Assoc. AIA
LS3P
Architecture

Education:

Clemson University / College of Architecture, Clemson, SC, B.A. in Architecture

Professional Affiliations:

American Institute of Architects (National, SC, and Greater Columbia)

Who or what inspired you to join ACE as a Mentor?

ACE is a great opportunity to educate and introduce high school students to architecture, construction, and engineering. As a high school student, it was difficult to truly understand what architecture was because I had little to no exposure to the profession, and to this day I am one of two students in the history of my high school to travel the path to become an architect. ACE is an incredible organization that will give students a wider range of understanding on what career paths are available to them in architecture, construction, and engineering. Helping students determine what they would want for the future would be considered an incredible accomplishment personally and professionally.
