How long have you been a mentor? 1 Year

Who or what inspired you to join ACE as a mentor?

I enjoy helping people who have similar interests as I do.

What have you found to be most rewarding about being a mentor?

The most rewarding part about being a mentor is observing the students collaboratively make decisions on project selection and design.

What is the most surprising thing(s) you've learned from being a mentor?

I was surprised at how fast the project started to come together after getting through the decisions on which of the two projects to pursue.
