25 HIGH SCHOOL SENIORS IN ACE MENTOR PROGRAM WIN \$400,000 IN NATIONAL SCHOLARSHIP COMPETITION

Philadelphia, PA – April 1, 2019 Twenty-five students from 19 states have won college scholarships worth between \$10,000 and \$40,000 in a new national competition organized by the ACE Mentor Program, a free afterschool program created by the integrated construction industry to attract students into pursuing industry-related careers.

The CMiC-Allen Berg Memorial scholarships are named in honor of the late founder of the construction management software company, CMiC. With the support of Mr. Berg’s family, this program will award \$400,000 in new scholarships annually for the next six years.

“The scholarships are a real career-booster for some of the most talented and promising of our thousands of students,” said ACE’s president Diana Eidenshink. “Many of them come from families with limited means. Some scholarship winners are the first in their family to attend college. We expect them to be industry standouts during their careers.”

Selected on the basis of merit and financial need, scholarship winners this fall will enter accredited college programs in architecture, interior design and several engineering fields, including civil, mechanical, electrical, and architectural. Half of scholarship recipients are minority and more than two-thirds are female.

Scholarship recipients will be spotlighted during ACE’s 25th Anniversary dinner on May 14. This event takes place at the Gaylord National Resort, in National Harbor, MD, just outside Washington, DC. For details visit www.acementor.org/25th-anniversary.

A list of scholarship winners can be viewed here. [need to post winners on our website and put link here]

About ACE Mentor Program

Founded in 1994, ACE, which stands for Architecture, Construction, and Engineering, annually engages 10,000 high school students in a free afterschool program lasting 15 sessions. Volunteer industry professionals mentor students and lead them through a hands-on simulation of designing and constructing buildings. ACE's 74 affiliates operate in 37 states. Since its establishment, ACE has awarded \$19 million in scholarships to help its students with post-secondary education and skilled crafts training. ACE is supported at the national and local level by major companies in the integrated construction industry. For more information visit www.acementor.org

About CMiC

As an industry pioneer, CMiC delivers complete and unified ERP and field solutions for construction and capital projects firms. CMiC's powerful software transforms how firms optimize productivity, minimize risk and drive growth by planning and managing all financials, projects, resources, and content assets—from a Single Database Platform™. With customers throughout North America, CMiC serves one-quarter of *ENR's Top 200 Contractors* and hundreds of small and mid-sized construction firms, from general and specialty contractors to heavy/highway and project owners. For more information, please visit www.cmicglobal.com.
