ACE MENTOR GREATER CHARLESTON

Dear Corporate Sponsors,

The ACE Mentor Program of America, Inc. (ACE) 501(c)(3) helps guide high school students and inspires them to explore careers in design and construction. Our mission is to **ENGAGE**, **EXCITE** and **ENLIGHTEN** high school students to pursue careers in architecture, engineering, and construction through mentoring and to support their continued advancement in the industry.

During the 2024 school year, the ACE Mentor Program of Greater Charleston's various ACE Mentoring programs across the Lowcountry provided mentees the opportunity to learn about the professional industries and perform a presentation at the end of the year. As always, the "ACE spirit" of students and school champions remained steadfast, as ACE Mentors ensured that students had an opportunity to learn and explore architecture, construction, and engineering.

For the 2025 school year, ACE Mentors will be active during the spring semester at East Cooper CAS, Cooper River CAS, Fort Dorchester, and Charleston Math and Science. Mentors will continue to assist and guide students by giving key lectures about the AEC industries, leading engaging classroom activities and site visits, and providing feedback on project designs, all to showcase pathways to pursue careers in the industry.

Your donations will help fund scholarships for high school seniors, provide resources for mentoring activities and events, and support overall programming for the 2024 - 2025 school year.

On behalf of ACE Mentors of Greater Charleston and participating students across the Lowcountry, we thank you for your support!

Sincerely,

Bobby Teachey II  
Brownstone Construction Group  
Chairman, ACE Mentor Program of Greater Charleston
