ABOUT ACE

The ACE Mentor Program of Washington is just one affiliate of the ACE Mentor Program of America. There are 71 affiliates all over the country.

ACE in Washington started in 2001, with just one team with 11 students.

For the last 23 years, thousands of students have met with hundreds of mentors to learn about architecture, engineering, and construction careers. To date, \$1,148,500 in scholarships have been awarded to seniors studying these fields in college. We anticipate awarding another \$100,000+ to this year's seniors in June.

The best part? Several ACE alumni are back in Puget Sound working for the firms that mentored them, and even now mentoring for ACE! **ACE works!**

STUDENT PROJECT

This year, 364 students from 78 area high schools completed ACE. They were mentored by 220 professionals from 80 local firms. Fifteen groups (eight in Seattle, four in Bellevue, two in Tacoma, and one fully virtual) met every other week to study every step of the building process, from the initial architectural designs to the final construction components.

This year, the ACE student design challenge was a historic preservation project, converting an abandoned structure into a "Library of the Future." The "RFP" (Request for Proposal) outlined several aspects of the design:

- 20,000 square feet
- Library collections, public reception, electronic workspaces
- Potential outdoors spaces, maker's spaces, or retail opportunities
- Sustainable design features & potential certifications (LEED, ILFI, etc.)
 - Accessibility and inclusivity considerations
 - \$15 million budget

THANK YOU to **Seneca Group (plus Gemdale and Blitz Holdings)** for providing the RFP and serving as an "Owner" mentor this year.

Welcome to Student Presentation Night!

Four ACE teams will present their design projects. Audience members are encouraged to participate in Q&A after the presentations.
